PROFESSIONAL SUMMARY

Credit analyst with an MBA in Finance and a B.E. in Computer Science, NISM Series-XV certified, with close to two years of capital markets experience at D. E. Shaw. Strong in financial spreading, debt serviceability with DSCR and ICR, and credit risk, and fluent in Excel and Python for building credit models and rating scorecards. Comfortable assessing a borrower end to end and assigning an internal rating.

SKILLS

Credit Analysis: Financial spreading, leverage and coverage ratios, DSCR, ICR, FCCR, working capital, covenant analysis, default risk, internal rating scorecards

Credit Risk: PD, LGD, EAD, expected loss, Altman Z-score, Merton distance to default, early warning signals, NPA basics

Financial Analysis: Financial statement analysis, ratio and cash flow analysis, DuPont, peer benchmarking

Programming & Tools: Python (pandas, NumPy), SQL, Advanced Excel, Power BI

Domain: Corporate and NBFC lending, banking and financial services

EXPERIENCE

D. E. Shaw India Pvt. Ltd. | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Analysed daily financial and market data across the F&O universe and turned it into clear conclusions and reports.
- Assessed instruments for downside and exposure by tracking implied volatility, open interest, and the option Greeks.
- Evaluated option strategies such as straddles, strangles, and spreads on a risk and return basis under different market conditions.
- Built automated Python pipelines to capture, clean, and validate daily market data, cutting manual work and improving accuracy.
- Prepared daily and weekly research reports on market data and positioning, working to tight daily deadlines with high ownership.
- Wrote reusable Python utilities and data validation checks that cut errors and were reused across daily reporting.

Arcesium India Pvt. Ltd. | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Kept AWS EC2 and RDS services highly available and resolved production database issues.
- Managed and optimized MS SQL and PostgreSQL databases, improved slow running queries, and evaluated Flyway for automated schema migration.

PROJECTS

Corporate Credit Assessment Engine: Spreading, DSCR/ICR & Internal Rating Scorecard | Python, Excel

- Spread a borrower's financials and computed leverage, coverage, liquidity, DSCR and ICR, then mapped them to an internal rating with a transparent scorecard.
- Stress tested EBITDA and interest rates to check serviceability headroom under a downside case.
- Rated three sample borrowers from strong to distressed with an Excel scorecard report.

Default Risk & Expected Loss Engine: Altman Z, Merton PD with PD, LGD, EAD | Python

- Estimated default risk with the Altman Z-score and the Merton distance to default model.
- Rolled single name results up to a portfolio expected loss using PD, LGD, and EAD.
- Ran sensitivity on asset volatility and leverage to show how PD and expected loss shift under stress.

Peer Financial Benchmarking Suite: Ratios, DuPont & Earnings Quality across 5 Big Tech Firms | Python, Excel

- Built a ratio and DuPont analysis covering leverage, margins, and returns with peer benchmarking.
- Flagged trends and outliers across three years to support a credit view.
- Benchmarked five large cap peers (Apple, Microsoft, Alphabet, Meta, Amazon) with earnings quality checks, charts, and unit tests.
