

SAIKUMAR KALERU

CREDIT RATING ANALYST

Hyderabad | +91 9398320218 | saikumarkaleru56@gmail.com | [linkedin.com/in/saikumar-kaleru](https://www.linkedin.com/in/saikumar-kaleru)

PROFESSIONAL SUMMARY

Credit rating analyst and MBA Finance candidate, NISM Series-XV certified, with close to two years of capital markets experience on a Futures and Options desk. Comfortable spreading multi year financials, mapping leverage and coverage metrics to a rating band, and framing business and financial risk drivers under base and stress cases. Uses Python and Excel to automate ratio computation and peer benchmarking that support a defensible rating view. Backed by a B.E. in Computer Science, with a strong grip on financial statement analysis and debt serviceability.

SKILLS

Credit Analysis and Rating: Financial spreading, ratio analysis, cash flow analysis, debt serviceability (DSCR, ICR), leverage and coverage metrics, business risk assessment, covenant analysis, rating rationale writing

Financial Statement Analysis: Balance sheet, P&L, cash flow, working capital, peer benchmarking, quality of earnings

Programming and Data: Python (pandas, NumPy), SQL, Advanced Excel, statistics and probability

Finance Core: Corporate finance, valuation, economics, debt and capital structure, bonds and debt instruments

Tools: Power BI, DAX, MS SQL, PostgreSQL

WORK EXPERIENCE

D. E. Shaw India Private Limited | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Analysed large volumes of market and financial data to support the desk's risk view.
- Reviewed instruments for risk and return trade offs and downside exposure across positions.
- Prepared daily reports that turned raw data into clear conclusions for senior stakeholders.
- Built automated Python pipelines to capture and validate data, improving accuracy and turnaround.

Arcesium India Private Limited | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Kept AWS EC2 and RDS services available and fixed production database issues.
- Managed MS SQL and PostgreSQL databases and improved slow queries.
- Tested Flyway for automated database schema migration and version control.

PROJECTS

Corporate Credit Scoring & Financial Spreading Model | Excel, Python

- Spread three years of financials for a sample of listed companies and computed leverage, coverage, liquidity, and DSCR/ICR ratios to assign an internal credit score with a mapped rating band.
- Automated ratio calculation and peer benchmarking in Python to standardise the assessment and flag deteriorating credit trends.

Industry & Business Risk Benchmarking Study | Excel, Python

- Benchmarked companies within a sector on margins, working capital cycle, and debt profile to isolate the business risk drivers behind a rating rationale.
- Ranked peers on a composite risk score and wrote a short rationale for each, linking quantitative outliers to business risk factors.

Cash Flow & Debt Serviceability Dashboard | Excel, Power BI

- Modeled operating cash flows against scheduled debt obligations to show serviceability headroom under base and stress scenarios.
- Added downside cases on revenue and margin shocks to show at what point coverage breaches thresholds.

EDUCATION

MBA in Finance, University College of Commerce & Business Management, Hyderabad

2024 to 2026

CGPA 8.9

B.E. in Computer Science & Engineering, Chaitanya Bharathi Institute of Technology, Hyderabad
