

SAIKUMAR KALERU

ESG & SUSTAINABILITY ANALYST

Hyderabad | +91 9398320218 | saikumarkaleru56@gmail.com | linkedin.com/in/saikumar-kaleru

PROFESSIONAL SUMMARY

ESG and MBA Finance candidate, NISM Series-XV certified, with close to two years of capital markets experience. Comfortable working with disclosure data across GRI, SASB, and BRSR, assessing materiality by sector, and linking ESG factors to financial risk and return. Uses Python and Excel to build ESG scorecards, benchmark peers, and integrate sustainability factors into research. Backed by a B.E. in Computer Science, with a strong grip on fundamental and financial analysis.

SKILLS

ESG and Sustainability: ESG frameworks (GRI, SASB, BRSR), ESG scoring and ratings, ESG data collection and analysis, materiality assessment, ESG integration in research, sustainability reporting, carbon and emissions

Financial Analysis: Fundamental and ratio analysis, valuation, sector and company research, peer benchmarking

Programming and Data: Python (pandas, NumPy), SQL, Advanced Excel, data visualisation

Finance Core: Corporate finance, economics, capital markets, financial reporting

Tools: Power BI, DAX, MS SQL, PostgreSQL

WORK EXPERIENCE

D. E. Shaw India Private Limited | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Collected, cleaned, and analysed large datasets for the desk's daily analytics.
- Reviewed companies and instruments on multiple factors to support risk decisions.
- Prepared daily reports that turned complex data into clear conclusions for stakeholders.
- Built automated Python pipelines to gather and validate data, improving coverage and accuracy.

Arcesium India Private Limited | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Kept AWS EC2 and RDS services available and fixed production database issues.
- Managed MS SQL and PostgreSQL databases and improved slow queries.
- Tested Flyway for automated database schema migration and version control.

PROJECTS

ESG Scorecard & Peer Benchmarking Model | Excel, Python

- Built an ESG scorecard that aggregates environmental, social, and governance indicators from disclosures into a weighted score, benchmarked against sector peers.
- Automated data extraction and scoring in Python to standardise the assessment and surface ESG leaders and laggards.

Materiality Assessment & ESG Integration Study | Excel

- Mapped material ESG factors by sector and linked them to financial risk to show how sustainability affects investment views.
- Built a materiality matrix ranking issues by stakeholder importance and financial impact, and documented which factors carry the most weight in each sector score.

ESG Data & Reporting Dashboard | Excel, Power BI

- Built a dashboard showing ESG metrics and trends across a sample universe to support screening and reporting.
- Added filters by sector and pillar (E, S, G) and flagged disclosure gaps and outliers to track year on year progress.
