

SAIKUMAR KALERU

EQUITY RESEARCH ANALYST

Hyderabad | +91 9398320218 | saikumarkaleru56@gmail.com | [linkedin.com/in/saikumar-kaleru](https://www.linkedin.com/in/saikumar-kaleru)

PROFESSIONAL SUMMARY

Equity research analyst and MBA Finance candidate, NISM Series-XV certified, with close to two years on a derivatives trading desk. Comfortable reading annual reports and earnings calls, forecasting revenue and margins, and turning a company view into a clear thesis, price target, and risk section. Builds DCF and relative valuation models in Excel and Python, and screens ideas across a coverage universe. Backed by a B.E. in Computer Science.

SKILLS

Equity Research and Valuation: Financial modeling, DCF, comparable company analysis, relative valuation, WACC, revenue and earnings forecasting, fundamental and ratio analysis, initiating coverage, price targets

Market and Technical Analysis: Nifty 50 and Bank Nifty, support and resistance, moving averages, RSI, MACD, chart patterns, trend and momentum

Derivatives and Markets: Options and futures, implied volatility, option greeks, commodity and F&O markets

Finance Core: Corporate finance, economics, statistics, financial reporting, research report writing

Data and Tools: Advanced Excel, Python, SQL, Power BI, DAX, TradingView

WORK EXPERIENCE

D. E. Shaw India Private Limited | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Analysed derivatives market data and tracked implied volatility, open interest, and option greeks across the F&O universe.
- Reviewed option strategies such as straddles, strangles, and spreads for risk and return trade offs.
- Prepared daily research reports on market data and volatility for the trading desk.
- Built automated pipelines to capture and analyse F&O market data, improving speed and accuracy.

Arcesium India Private Limited | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Kept AWS EC2 and RDS services available and fixed production database issues.
- Managed MS SQL and PostgreSQL databases and improved slow queries.
- Tested Flyway for automated database schema migration and version control.

PROJECTS

DCF Valuation Model | Python, Excel

- Built a discounted cash flow model that projects five years of free cash flow, discounts them at WACC, adds a terminal value, and bridges enterprise to equity value for an intrinsic price per share.
- Added bull, base, and bear scenarios, a WACC by terminal growth sensitivity grid, and a reverse DCF, using real financials (yfinance).

Comparable Company Analysis | Python, Excel

- Computed peer trading multiples (P/E, EV/EBITDA, EV/Revenue, P/B, PEG) across real peers and derived an implied valuation range versus price.
- Automated peer set assembly and multiple calculation in Python (yfinance), and cross checked the read against the DCF.

Multi Strategy Backtester: Nifty & Bank Nifty | Python

- Backtested eight rules based strategies over six years, comparing CAGR, Sharpe, Sortino, and max drawdown against buy and hold.
- Added transaction cost and slippage assumptions and a walk forward split, and charted equity curves and drawdowns to compare strategies.

EDUCATION

MBA in Finance, University College of Commerce & Business Management, Hyderabad

2024 to 2026

CGPA 8.9

B.E. in Computer Science & Engineering, Chaitanya Bharathi Institute of Technology, Hyderabad
