

# SAIKUMAR KALERU

## INVESTMENT OPERATIONS / MIDDLE OFFICE ANALYST

Hyderabad | +91 9398320218 | saikumarkaleru56@gmail.com | linkedin.com/in/saikumar-kaleru

### PROFESSIONAL SUMMARY

Investment operations and MBA Finance candidate, NISM Series-XV certified, with close to two years supporting a Futures and Options desk across data capture, validation, and reporting. Comfortable with the trade lifecycle, reconciliation, and exception management, and used to investigating breaks across sources to a clean close. Uses Python and SQL to automate operational workflows and improve data accuracy. Backed by a B.E. in Computer Science, with a strong grip on controls and reporting.

### SKILLS

**Trade and Investment Operations:** Trade lifecycle, trade capture and validation, reconciliation, settlements and confirmations, exception management, corporate actions basics

**Markets and Products:** Options and futures, equities, trade booking and position keeping, reference and market data

**Programming and Data:** Python (pandas, NumPy), SQL, Advanced Excel, process automation

**Finance Core:** Financial markets, financial reporting, controls and reconciliation

**Tools:** Power BI, DAX, MS SQL, PostgreSQL

### WORK EXPERIENCE

#### D. E. Shaw India Private Limited | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Captured, validated, and organised daily market and trade data for the F&O desk.
- Reconciled market data and positions and resolved discrepancies to keep records accurate.
- Prepared daily reports summarising data and exposures for the desk.
- Built automated Python pipelines to streamline data capture and validation, reducing manual effort and errors.

#### Arcesium India Private Limited | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Kept AWS EC2 and RDS services available and fixed production database issues.
- Managed MS SQL and PostgreSQL databases and improved slow queries.
- Tested Flyway for automated database schema migration and version control.

### PROJECTS

#### Trade Reconciliation & Exception Management Tool | Python, SQL

- Built a tool that matches trade and position records across sources, auto flagging breaks and generating an exception queue for resolution.
- Automated the daily reconciliation to reduce manual checks and speed up break investigation.

#### Trade Lifecycle & Data Validation Pipeline | Python

- Captured and validated trade and market data end to end, applying quality checks to catch missing or erroneous records before reporting.
- Logged failed checks with clear reasons so exceptions could be triaged quickly.

#### Operations Reporting Dashboard | Excel, Power BI

- Built a dashboard tracking daily volumes, breaks, and aging exceptions for clear operations visibility.
- Added aging buckets and filters so open items could be prioritised by risk and age.

### EDUCATION

#### MBA in Finance, University College of Commerce & Business Management, Hyderabad

2024 to 2026

CGPA 8.9

#### B.E. in Computer Science & Engineering, Chaitanya Bharathi Institute of Technology, Hyderabad
