

SAIKUMAR KALERU

WEALTH MANAGEMENT & INVESTMENT ADVISORY ANALYST

Hyderabad | +91 9398320218 | saikumarkaleru56@gmail.com | linkedin.com/in/saikumar-kaleru

PROFESSIONAL SUMMARY

Wealth Management analyst and MBA Finance candidate, NISM Series-XV (Research Analyst) certified, with close to two years of capital markets experience. Good at portfolio construction, asset allocation, mutual fund and equity research, and risk profiling. Use Excel and Python to build model portfolios, screen products, and prepare client ready investment recommendations. Currently pursuing NISM Series X-A (Investment Adviser Level 1).

SKILLS

Wealth & Advisory: Asset allocation, portfolio construction and rebalancing, risk profiling, goal based and financial planning, product suitability, client portfolio reviews

Investment Research: Mutual fund and equity analysis, fund selection and performance attribution, valuation, fundamental and ratio analysis

Markets & Instruments: Equity, debt, and hybrid funds, ETFs, derivatives basics, fixed income, SIP, STP, and SWP strategies

Finance Core: Economics, taxation basics, financial reporting, personal finance

Data & Tools: Advanced Excel, Python, SQL, Power BI, TradingView

WORK EXPERIENCE

D. E. Shaw India Private Limited | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Analysed market and derivatives data to inform positioning and built a solid grasp of risk and return.
- Evaluated instruments and strategies for suitability across different risk appetites.
- Prepared daily research reports that turned complex market data into clear, actionable points for stakeholders.
- Built Python pipelines to track performance and exposures, which made reporting faster and more accurate.

Arcesium India Private Limited | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Fixed production database issues and kept EC2 and RDS services available.
- Managed MS SQL and PostgreSQL databases and improved slow queries.
- Tested Flyway for automated schema migration and version control.

PROJECTS

Goal Based Model Portfolios & Asset Allocation | Excel, Python

- Built model portfolios for conservative, balanced, and aggressive risk profiles, mapping allocation to goals and time horizons with rebalancing rules.
- Backtested the allocations for CAGR, volatility, and max drawdown to back the recommendations with evidence.

Mutual Fund Screener & Performance Attribution | Excel, Python

- Screened funds on returns, expense ratio, risk metrics, and consistency to shortlist products.
- Compared each fund against its benchmark and category peers to explain where returns came from.

Client Risk Profiling & Suitability Framework | Excel

- Built a scoring framework that maps risk tolerance and capacity to suitable product mixes.
- Used the scores to support needs based advice and keep recommendations consistent across clients.

EDUCATION

MBA in Finance, University College of Commerce & Business Management, Hyderabad

2024 to 2026
