## Free lectures

- **BoS Knowledge Portal** → *Live/Recorded Classes* → Intermediate → subject
- **ICAI YouTube** channel — full subject playlists
- **Digital Learning Hub** ([learning.icai.org](https://learning.icai.org)) — structured free courses

Use lectures for tough conceptual topics (Accounting standards, Costing, Law); read the module for everything else.

## Practice material (the backbone) — from Examination section

**Path:** [icai.org](https://www.icai.org) → Students → Examination → *Intermediate*

Download the **RTP & MTP for the May 2027 attempt** as soon as ICAI releases them (usually a couple of months before the exam).

## Amendments & updates (critical for Tax & Law)

- **Path:** BoS Knowledge Portal → *Academic Updates / Supplementary Study Material*
- Tax (IT + GST) and Company Law change every session. Always study the **Statutory Update / Supplementary** issued for **May 2027** alongside the main book.

## Later levels (same sources)

- **Self-Paced Modules (SET A–D):** enrol via SSP; material provided on the module portal after enrolment. See `02_SelfPaced_Modules.md`.
- **CA Final:** BoS Knowledge Portal → Study Material → Final; RTP/MTP/past papers under Examination → Final. See `03_Final_StudyPlan.md`.

## Optional paid supplements (not required — you chose self-study)

Author books / private online classes (Unacademy, PW, local faculty) — only if you want extra hand-holding on Law/Audit theory. **Never a replacement** for ICAI material, since the exam is set from BoS content.
