PROFESSIONAL SUMMARY

Equity research and investment analyst with an MBA in Finance and a B.E. in Computer Science, NISM Series-XV certified, with close to two years of capital markets experience at D. E. Shaw. Strong in valuation with DCF and comparable companies, three-statement modeling, and financial statement analysis, and fluent in Excel and Python for building models, screening ideas, and writing research. Comfortable turning research into clear investment views with a target price and risks.

SKILLS

Valuation & Modeling: DCF (FCFF, WACC, terminal value), comparable company analysis (EV/EBITDA, EV/Sales, P/E, P/B, PEG), three-statement modeling, sensitivity and scenario analysis

Research & Analysis: Financial statement analysis, ratio analysis, earnings and results analysis, sector and company research, investment thesis, target price, catalysts and risks

Corporate Finance: Cost of capital, capital structure, M&A basics, accretion and dilution, ESG factors

Data & Tools: Advanced Excel, PowerPoint, Python (pandas, NumPy), SQL, Power BI

Markets: Equity and derivatives markets, Nifty and Bank Nifty, capital markets

EXPERIENCE

D. E. Shaw India Pvt. Ltd. | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Analysed company and market data across the F&O universe and turned it into clear, decision ready conclusions for the desk.
- Tracked earnings, results, and events and how the market reacted, building a feel for what moves prices.
- Prepared daily and weekly research reports on market data and volatility that the desk relied on to form and test its views.
- Built automated Python pipelines to capture, clean, and process daily market data, cutting manual work and improving accuracy.
- Studied sectors, instruments, and option strategies such as straddles, strangles, and spreads to screen ideas and support the desk's views.
- Screened instruments on valuation and market reaction to shortlist ideas and wrote short notes on the rationale.

Arcesium India Pvt. Ltd. | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Kept AWS EC2 and RDS services highly available and resolved production database issues.
- Managed and optimized MS SQL and PostgreSQL databases, improved slow running queries, and evaluated Flyway for automated schema migration.

PROJECTS

Equity Intrinsic Valuation Engine: 5 Year DCF, WACC & Terminal Value Sensitivity (AAPL) | Python, Excel

- Built a five year FCFF DCF with WACC, terminal value, an equity bridge, and base and downside scenarios.
- Added a reverse DCF to show what growth and margins the current price implies.
- Ran a two-way sensitivity on WACC and terminal growth and reconciled the model to Excel.

Relative Valuation Model: Peer Trading Multiples & Implied Price Range (AAPL) | Python, Excel

- Built a trading comps set on P/E, EV/EBITDA, EV/Sales, P/B, and PEG with peer statistics and an implied valuation range.
- Presented the output as a football field to triangulate value against the DCF.
- Pulled peer financials with yfinance, computed each multiple, and set the implied price range from peer medians.

Integrated Three Statement Model: Driver Based 5 Year Forecast with Scenarios (MSFT) | Python, Excel

- Built a linked income statement, balance sheet, and cash flow with a driver based forecast that stays balanced.
- Ran scenarios and a simple valuation off the forecast cash flows.
- Kept the balance sheet balanced each period from a small set of driver inputs.
- Wrote the model as a small, tested Python package with a clean Excel output for review.

EDUCATION

MBA in Finance, University College of Commerce & Business Management, Hyderabad

2024 to 2026

CGPA 8.9

B.E. Computer Science & Engineering, Chaitanya Bharathi Institute of Technology, Hyderabad
