

SAIKUMAR KALERU

FINANCIAL ANALYST, FP&A

Hyderabad | +91 9398320218 | saikumarkaleru56@gmail.com | [linkedin.com/in/saikumar-kaleru](https://www.linkedin.com/in/saikumar-kaleru)

PROFESSIONAL SUMMARY

Financial analyst and MBA Finance candidate, NISM Series-XV certified, with close to two years of capital markets and analytics experience. Comfortable building three statement and driver based models, running budget versus actual and price, volume, and mix variance, and turning numbers into concise management commentary. Uses Advanced Excel, Power BI, DAX, Python, and SQL to automate month end reporting and rolling reforecasts.

SKILLS

FP&A and Corporate Finance: Financial planning and analysis, financial modeling, budgeting and forecasting, variance analysis, driver based planning, three statement modeling, scenario planning, KPI dashboards, unit economics (ARR, NRR, LTV/CAC, Rule of 40)

Data, BI, and Reporting: Advanced Excel (modeling, pivots), Power BI, DAX, SQL, Python (pandas), automated dashboards

Management Reporting: Management and board reporting, KPI and performance tracking, cost and profitability analysis

Finance Core: Economics, statistics, financial statement analysis, research report writing

Databases and Tools: MS SQL, PostgreSQL, TradingView

WORK EXPERIENCE

D. E. Shaw India Private Limited | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Built financial and data models in Excel and Python to analyse performance across a large product universe.
- Automated a recurring reporting pipeline that pulled and reconciled large datasets, cutting report preparation time and removing manual update errors.
- Produced daily performance reports with concise variance commentary for senior stakeholders.
- Analysed risk and return trade offs across strategies to support desk decisions.

Arcesium India Private Limited | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Kept AWS EC2 and RDS services available and fixed production database issues.
- Managed MS SQL and PostgreSQL databases and improved slow queries.
- Tested Flyway for automated database schema migration and version control.

PROJECTS

Three Statement Financial Model & 5 Year Forecast | Python, Excel

- Built a linked income statement, balance sheet, and cash flow model that projects a company five years forward from operating drivers (revenue growth, margins, working capital days, capex).
- Added a debt revolver with cash sweep, three scenarios, a two way sensitivity table, and a DCF off the model's free cash flow, using real financials (yfinance).

Budget vs Actual Variance Analysis | Python, Excel

- Built a budget versus actual variance model across product lines and cost centres, with a price, volume, and mix decomposition, a flex budget, and a rolling reforecast.
- Auto generated plain English variance commentary and an Excel dashboard to speed up month end reporting.

Financial Ratio & Trend Analysis | Python, Excel

- Computed profitability, liquidity, leverage, and efficiency ratios for a company versus peers (yfinance), with a DuPont decomposition of ROE and earnings quality red flags.
- Wrapped the analysis into a repeatable Python routine that outputs a formatted Excel ratio pack with trend charts.

EDUCATION

MBA in Finance, University College of Commerce & Business Management, Hyderabad

2024 to 2026

CGPA 8.9

B.E. in Computer Science & Engineering, Chaitanya Bharathi Institute of Technology, Hyderabad
