

SAIKUMAR KALERU

FUND ACCOUNTING ANALYST

Hyderabad | +91 9398320218 | saikumarkaleru56@gmail.com | linkedin.com/in/saikumar-kaleru

PROFESSIONAL SUMMARY

Fund accounting and MBA Finance candidate, NISM Series-XV certified, with close to two years supporting a trading desk through data validation, valuation, and daily reporting. Comfortable building NAV from priced holdings, cash, accruals, and expenses, reconciling trades and cash across sources, and investigating breaks to a clean close. Uses Python and SQL to automate pricing validation and reconciliation checks that reduce errors and speed daily reporting. Backed by a B.E. in Computer Science, with a strong grip on financial reporting and controls.

SKILLS

Fund Accounting: NAV computation, securities pricing and valuation, trade and cash reconciliation, income and expense accruals, capital activity, financial statement preparation support

Controls and Reporting: Reconciliations, break investigation, data quality checks, client and regulatory reporting support

Programming and Data: Python (pandas, NumPy), SQL, Advanced Excel, process automation

Finance Core: Accounting basics, financial reporting, mutual funds and instruments, economics

Tools: Power BI, DAX, MS SQL, PostgreSQL

WORK EXPERIENCE

D. E. Shaw India Private Limited | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Validated and priced daily market data for the desk, keeping valuations accurate.
- Reconciled positions and market data and investigated discrepancies to keep records clean.
- Prepared daily reports consolidating valuations and exposures for the desk.
- Built automated Python pipelines for data capture and validation, reducing manual effort and errors.

Arcesium India Private Limited | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Kept AWS EC2 and RDS services available and fixed production database issues.
- Managed MS SQL and PostgreSQL databases and improved slow queries.
- Tested Flyway for automated database schema migration and version control.

PROJECTS

NAV Computation & Valuation Model | Excel, Python

- Built a model that computes a sample fund's NAV from priced holdings, cash, income accruals, and expenses, with checks against a prior day baseline.
- Automated securities pricing and validation in Python to standardise valuation and flag stale or missing prices.

Trade & Cash Reconciliation Tool | Python, SQL

- Reconciled trades and cash across sources, auto flagging breaks and building an exception log for resolution.
- Automated the daily match to cut manual checks and speed up break investigation.

Fund Reporting & Data Quality Dashboard | Excel, Power BI

- Built a dashboard tracking NAV movements, accruals, and open breaks for clear visibility into reporting status.
- Added data quality checks that highlight gaps and outliers before the daily close.

EDUCATION

MBA in Finance, University College of Commerce & Business Management, Hyderabad

2024 to 2026

CGPA 8.9

B.E. in Computer Science & Engineering, Chaitanya Bharathi Institute of Technology, Hyderabad
