

SAIKUMAR KALERU

KYC / AML & FINANCIAL CRIME ANALYST

Hyderabad | +91 9398320218 | saikumarkaleru56@gmail.com | linkedin.com/in/saikumar-kaleru

PROFESSIONAL SUMMARY

KYC and AML analyst and MBA Finance candidate, NISM Series-XV certified, with close to two years of financial services experience in data analysis and reporting. Good at customer due diligence, transaction monitoring, and risk screening, and use Python and SQL to work through large datasets, spot anomalies, and support financial crime investigations. Comfortable running CDD and EDD, sanctions, PEP, and adverse media checks, and triaging monitoring alerts. Document clear, audit ready findings that support SAR decisions and periodic reviews under AML and CFT rules.

SKILLS

KYC & AML: Customer due diligence (CDD/EDD), KYC onboarding and periodic review, transaction monitoring, sanctions and PEP screening, adverse media checks, case investigation and SAR support

Financial Crime Analytics: Anomaly and pattern detection, risk scoring, alert triage, regulatory awareness (AML/CFT)

Quantitative & Programming: Python (pandas, NumPy), SQL, Advanced Excel, data analysis

Finance Core: Banking and payments, financial products, compliance basics, reporting

Tools: Power BI, DAX, MS SQL, PostgreSQL

WORK EXPERIENCE

D. E. Shaw India Private Limited | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Analysed large volumes of market and transaction data to spot anomalies and patterns.
- Investigated data discrepancies and outliers and wrote up the findings clearly for stakeholders.
- Prepared daily reports that turned large datasets into short, decision ready summaries.
- Built Python pipelines to screen and validate data at scale, which improved detection speed and accuracy.

Arcesium India Private Limited | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Fixed production database issues and kept EC2 and RDS services available.
- Managed MS SQL and PostgreSQL databases and improved slow queries.
- Tested Flyway for automated schema migration and version control.

PROJECTS

Transaction Monitoring & Anomaly Detection Tool | Python, SQL

- Built a rules and statistics based tool that flags unusual transaction patterns like spikes, structuring, and outliers for alert triage.
- Screened large datasets automatically and ranked alerts by risk to prioritise investigation.

KYC Risk Scoring & Screening Framework | Excel, Python

- Built a customer risk scoring model using profile, geography, and product risk to set CDD and EDD tiers and review frequency.
- Tested the model on sample profiles and tuned thresholds to balance false positives against missed risk, and documented the scoring logic.

Case Management & Investigation Dashboard | Excel, Power BI

- Built a dashboard tracking alerts, case status, and aging to support timely investigation and SAR readiness.
- Added aging and SLA flags so overdue cases surface early for escalation and regulatory reporting.

EDUCATION

MBA in Finance, University College of Commerce & Business Management, Hyderabad

2024 to 2026

CGPA: 8.9

B.E. in Computer Science & Engineering, Chaitanya Bharathi Institute of Technology, Hyderabad
