

SAIKUMAR KALERU

TREASURY ANALYST

Hyderabad | +91 9398320218 | saikumarkaleru56@gmail.com | [linkedin.com/in/saikumar-kaleru](https://www.linkedin.com/in/saikumar-kaleru)

PROFESSIONAL SUMMARY

Treasury analyst and MBA Finance candidate, NISM Series-XV certified, with close to two years on a derivatives trading desk working with interest rate and volatility data. Good at cash flow forecasting, liquidity management, and FX and interest rate hedging with derivatives, and use Excel and Python to build cash models, monitor exposures, and automate treasury reporting. Comfortable building rolling cash flow forecasts, watching liquidity and FX and rate exposures, and sizing forward and option hedges. Quantify residual risk and hedging cost against set limits.

SKILLS

Treasury & Liquidity: Cash flow forecasting, liquidity and working capital management, bank relationships and funding, investment of surplus, cash positioning, cash management

Risk & Hedging: FX and interest rate risk, hedging with forwards, futures, and options, exposure monitoring, derivatives and Greeks

Quantitative & Programming: Python (pandas, NumPy), SQL, Advanced Excel, statistics

Finance Core: Corporate finance, fixed income, money markets, financial reporting

Tools: Power BI, DAX, MS SQL, PostgreSQL, TradingView

WORK EXPERIENCE

D. E. Shaw India Private Limited | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Tracked volatility, rates, and derivatives exposures to inform positioning.
- Evaluated options and futures strategies for hedging and for risk and return.
- Prepared daily reports on market data and exposures for the desk.
- Built Python pipelines to capture and monitor market data, which made exposure tracking faster and more accurate.

Arcesium India Private Limited | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Fixed production database issues and kept EC2 and RDS services available.
- Managed MS SQL and PostgreSQL databases and improved slow queries.
- Tested Flyway for automated schema migration and version control.

PROJECTS

Cash Flow Forecasting & Liquidity Model | Excel, Python

- Built a rolling cash flow forecast that projects inflows and outflows and flags shortfalls and surplus for short term investment.
- Automated the data refresh in Python to keep the forecast current and support daily cash positioning.

FX & Interest Rate Hedging Simulator | Excel, Python

- Modeled exposure to currency and rate moves and simulated forward and option hedges to measure residual risk and hedging cost.
- Compared hedge sizes against defined limits to show the tradeoff between cost and protection.

Treasury Exposure & Reporting Dashboard | Excel, Power BI

- Built a dashboard that consolidates cash, funding, and market exposures with limit monitoring.
- Added limit breach flags so exceptions surface early for treasury reporting.

EDUCATION

MBA in Finance, University College of Commerce & Business Management, Hyderabad

2024 to 2026

CGPA: 8.9

B.E. in Computer Science & Engineering, Chaitanya Bharathi Institute of Technology, Hyderabad
