Crude Oil (WTI)

HOLD

No active trade — watch range **70** to **113**; act on a clear break either side.

Confidence 57% Trend -1.00 · Momentum -1.00 · Volatility -0.77 · Mean-Reversion +1.00 · Structure +0.95

Summary AUTO-GENERATED · RULE-BASED — Crude Oil (WTI) is trading at 71, below its 20-period MA and below the 50-period MA, indicating a developing downtrend on the daily timeframe. RSI at 15 sits in oversold territory while MACD momentum is negative. A directional signal was present (57%), but the overbought/oversold guardrail holds the stance at HOLD; watch the 70–113 range.

Last price	71	Resistance	113
20-period MA	84	Support	70
50-period MA	92	Bollinger upper	101
		Bollinger lower	68
RSI(14)	14.5 (oversold)	Fib 0.236	103
MACD	bearish	Fib 0.382	97
		Fib 0.5	92
ATR(14)	4.7	Fib 0.618	87

Method: The Buy/Sell/Hold view is a **confidence-weighted score** across five categories — Trend (40%), Momentum (25%), Volatility (15%), Mean-Reversion (10%) and Structure (10%) — each voting in [-1,+1]; the weighted net gives the direction and the % confidence. Stops/targets are sized to volatility (1.5x / 2.5x ATR); extremely overbought/oversold tapes are stepped aside to HOLD. The per-asset **Summary** is **auto-generated from the indicators by a rule-based template** (not AI).
