

SAIKUMAR KALERU

DEVOPS / SRE / CLOUD ENGINEER

Hyderabad, India | +91 9398320218 | saikumarkaleru56@gmail.com | linkedin.com/in/saikumar-kaleru

PROFESSIONAL SUMMARY

DevOps and SRE focused engineer with a B.E. in Computer Science and a solid grip on operating systems, computer networks, databases, and Linux. I work across CI/CD, containers, and orchestration, using Docker, Kubernetes, and Jenkins to build and deploy services. Worked as a Site Reliability Engineer at Arcesium keeping AWS EC2 and RDS services available and databases healthy, and spent close to two years at D. E. Shaw building C++ and Python systems and data pipelines. Ranked in the top 5% in GATE CSE 2021.

TECHNICAL SKILLS

Containers & Orchestration: Docker, Kubernetes (deployments, services, health checks, scaling)

CI/CD & Automation: Jenkins, build, test, and deploy pipelines, Git

Cloud & Reliability: AWS (EC2, RDS), high availability, monitoring, database reliability

Platform & Scripting: Linux, Bash, Python, Flyway (schema and version control)

Databases: SQL, MS SQL, PostgreSQL, query tuning, data modeling

Core CS: Operating Systems, Computer Networks, DBMS, Data Structures & Algorithms, System Design

EXPERIENCE

Arcesium India Pvt. Ltd. | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

Cloud Reliability and Databases

- Kept AWS EC2 and RDS services available and supported production database infrastructure.
- Managed MS SQL and PostgreSQL databases and improved slow queries to cut load.
- Tested Flyway for automated database schema migration and version control.

D. E. Shaw India Pvt. Ltd. | Member Technical

May 2022 to Jan 2024

Software and Systems Engineering, F&O Trading Desk

- Built and maintained C++ and Python systems and automated data pipelines for a Futures and Options trading desk.
- Captured and processed live market data and automated reporting under daily production deadlines.
- Kept latency sensitive pipelines running reliably using profiling and monitoring.

PROJECTS

Ecommerce Microservices | Docker, Kubernetes, Jenkins

- Built an ecommerce backend as containerized microservices running on Kubernetes with health checks and scaling.
- Set up a Jenkins pipeline to build, test, and deploy the services automatically.

Low Latency Order Book | C++20, Python, WebSockets

- Built a limit order book with a price and time priority matching engine in C++20.
- Added Python bindings and a WebSocket server that streams market data to a web GUI.

REST API Service | Python, FastAPI, Docker

- Built a REST API with token based login, a relational database, and pagination.
- Wrote a pytest test suite and packaged the service with Docker.

EDUCATION

B.E. Computer Science & Engineering, CBIT, Hyderabad

2018 to 2022

Chaitanya Bharathi Institute of Technology · CGPA 8.8

MBA in Finance, UCCBM, Hyderabad

2024 to 2026

University College of Commerce & Business Management · CGPA 8.9

RELEVANT COURSEWORK

Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, Object Oriented Programming, Design & Analysis of Algorithms, Software Engineering, Computer Architecture

CERTIFICATIONS

HackerRank: Problem Solving and Java (Basic) Programming

NISM Series-XV: Research Analyst (SEBI/NISM), Reg. No. NISM-202600123995

ACHIEVEMENTS

- GATE CSE 2021: top 5% among national candidates in Computer Science.
- UGC NET 2025 (Management): 95.6 percentile.
