EXPERIENCE

D. E. Shaw India Private Limited | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Prepared daily market research for the desk and explained the numbers in plain, decision ready terms.
- Studied financial products, derivatives, and market data across the F&O space, building solid product knowledge.
- Built automated Python data pipelines and daily reports, working to tight deadlines with steady output.
- Worked with people across teams to sort out requirements, present findings, and handle their follow up questions.

Arcesium India Private Limited | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Kept database services running and fixed issues within agreed timelines, and tuned slow MS SQL and PostgreSQL queries.

PROJECTS & INITIATIVES

Sales Training (self directed) | ongoing

- Working through modules on prospecting and lead generation, consultative and SPIN selling, negotiation, and CRM and sales metrics.
- Practising BANT, MEDDIC, and SPIN with HubSpot, Salesforce, and LinkedIn Sales Navigator to run qualification, discovery, and pipeline tracking.

Market Research & Reporting | Excel, Python

- Wrote research notes and watchlists across equities and commodities and presented clear views to a non technical audience.
- Turned market data into short talking points and comparisons, which is close to how a product pitch is framed.

Financial Product & Valuation Analysis | Excel

- Built valuation and credit assessment models to understand how financial products are priced and compared.
- Matched product features to different client needs and risk levels, which supports suitability first advice.
