EXPERIENCE

D. E. Shaw India Private Limited | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Prepared daily market research for the desk and explained the numbers in plain, decision ready terms.
- Studied financial products, derivatives, and market data across the F&O space and built solid product knowledge.
- Built automated Python data pipelines and daily reports, working to tight deadlines with steady output.
- Worked across teams to sort out requirements, present findings, and answer follow up questions.
- Tracked positions and market moves through the day and kept the desk updated on changes.

Arcesium India Private Limited | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Kept database services running and fixed issues within agreed timelines, and tuned slow MS SQL and PostgreSQL queries.
- Coordinated with engineers during incidents and documented fixes for reuse.

PROJECTS & INITIATIVES

Market Research & Reporting | Excel, Python

- Wrote research notes and watchlists across equities and commodities and presented clear views to non technical audiences.
- Turned market data into short talking points and product comparisons.
- Automated data pulls in Python so the notes stayed current with less effort.

Financial Product & Valuation Analysis | Excel

- Built valuation and credit assessment models to see how financial products are priced and compared.
- Matched product features to different client needs and risk levels for suitability first advice.
- Documented the assumptions so the analysis was easy to review and reuse.
