PROFESSIONAL SUMMARY

MBA Finance graduate with an engineering background and close to two years at D. E. Shaw researching markets, working to daily deadlines, and presenting findings to stakeholders. Strong analytical and communication skills, with a habit of turning research and data into clear conclusions. Find prospects, understand what they need, and move opportunities forward in an organised, honest way.

CORE COMPETENCIES

Business Development: Market research, lead generation, client research, relationship building, consultative selling, negotiation, pipeline and target tracking

Communication: Pitching and presentations, cold outreach over email, call, and LinkedIn, objection handling, stakeholder reporting

Analytics: Business acumen, data driven prospecting, Advanced Excel, Power BI, Python, SQL

Tools: CRM (HubSpot, Salesforce), LinkedIn Sales Navigator, MS Office

Strengths: Ownership, consistency, resilience, attention to detail, working across teams

Domain: Financial markets, Futures and Options, financial products, business acumen

EXPERIENCE

D. E. Shaw India Private Limited | Member Technical (F&O Trading Desk)

May 2022 to Jan 2024

- Built daily market research for the trading desk and turned complex data into clear, decision ready notes.
- Analysed markets end to end and flagged the most relevant signals for the desk each day.
- Presented findings and recommendations to stakeholders and answered follow up questions directly.
- Managed daily deadlines with high ownership across a fast paced team, with consistent delivery.
- Tracked positions and metrics through the day and kept the desk updated on changes.

Arcesium India Private Limited | Site Reliability Engineer (Intern)

Jan 2022 to May 2022

- Resolved issues within agreed timelines and kept critical services running for the team.
- Coordinated with engineers during incidents and documented fixes for reuse.

PROJECTS & INITIATIVES

Market Research & Reporting | Excel, Python

- Produced research notes and watchlists and presented clear conclusions to non technical audiences.
- Ranked and filtered large datasets to surface the most relevant opportunities.
- Automated repetitive data pulls in Python to cut reporting time.
- Standardised the report format so conclusions stayed consistent and easy to act on.

Analytics Dashboards | Power BI, Excel

- Built dashboards that turned raw data into clear metrics for reporting and decisions.
- Set up refreshable reports so stakeholders could pull the latest numbers without help.
- Visualised activity and outcomes to track progress against targets.
- Added filters and drilldowns so users could explore the numbers on their own.

CERTIFICATIONS

NISM Series XV: Research Analyst certification

NISM Series X-A: Investment Adviser (pursuing)
